How To Calculate Your Best Pricing.

All percentage-off offer code/contract pricing discounts are calculated and deducted from the LIST price.

There are no additional percentage-off discounts on SALE prices, quantity price breaks and/or mix & match pricing.

"LIST price minus percentage-off offer code/contract pricing discounts" will prevail unless SALE prices, quantity price breaks and/or mix &match price provides you a lower price.

Dollar-off discounts (offer codes and/or coupons) are deducted from the TOTAL PURCHASE PRICE.

NEED HELP: call 1-800-937-3482 or service@ssww.com

- Enter LIST Price in List Price column.
- Multiply offer code/contract discount x LIST price (if applicable).
- Determine best pricing (discount vs SALE) and enter in SALE/BEST Price column (if applicable).
- Multiply QTY times SALE/BEST Price, enter in TOTAL PRICE column.
- Total Final Prices
- Subtract any dollar-off offer/coupons in dollar-off box.
- Calculate appropriate tax, shipping and handling.
